F.24.1 Policy statement

Introduction

ALUDEX BV is a Full Service production company in the field of aluminium profiles. We can take care of everything that has to do with your aluminium profiles for you. From the initial design of a new profile to series production of your semi-finished products, including Supply Chain Management.

ALUDEX BV belongs to the Amari Group and has only European production locations. The combination of all these production locations, including 18 extrusion presses, allows us to provide you with the best possible service in the field of:

- Extrude
- Anodizing
- Powder coating
- Profile processing
- Assembly
- Stock Stance
- Logistics solutions

Mission

ALUDEX BV is an experienced and driven team that wants to be an important partner for all its relations. In addition to being a reliable and flexible player in the field of aluminium in the Benelux and the DACH countries, we want to do this in an environmentally and socially responsible manner. Of course, our relationship with (and insight into) the wishes of our customers comes first. Thanks to a good team spirit, good internal and external training of our employees and years of experience in the aluminium processing industry, we are able to offer an optimal solution for almost any aluminium application.

ALUDEX BV strives to be a leading, reliable and flexible partner for customers in the Benelux and DACH countries in the field of custom-made aluminium profiles. We are explicitly committed to continuous improvement of our quality, environmental and occupational safety performance, in line with ISO 9001, ISO 14001 and ISO 45001.

F.24.1 Policy statement

Quality policy (ISO 9001)

ALUDEX BV provides products and services that meet the requirements and expectations of our customers. We achieve this by providing resources such as systematic processes, continuous improvement, adequate training of employees, a strong focus on customer satisfaction and risk-based thinking.

Environmental Policy (ISO 14001)

ALUDEX BV protects the environment by preventing pollution, minimizing waste and emissions (including CO2), promoting recycling and sustainable sourcing of materials. We comply with all relevant environmental laws and regulations and set measurable environmental objectives. In addition, we expect our employees to take their responsibility with regard to the environmental duty of care, and we encourage people to actively come up with ideas for improvement.

Health and Safety Policy (ISO 45001)

ALUDEX BV creates a safe and healthy working environment by preventing work-related accidents, occupational diseases and incidents. We comply with all occupational health and safety regulations, identify risks, provide training and resources for safe working, and strive for zero incidents through employee participation and continuous improvement.

This policy statement has been drawn up by the Executive Board, is reviewed annually, communicated via the internet, mailings, meetings and introductions, and forms the basis for our integrated management system.

On behalf of the Executive Board,
ALUDEX BV
